

TWENTY-EIGHT KILLED, THIRTEEN INJURED IN A WRECK ON GREAT NORTHERN ROAD

Wild Cars Shoot Down Mountain and Hit Passenger Train

General Superintendent Downs Was Among Those Who Perished.

His Special Car Crushed Like an Egg Shell—Many Laborers Either Killed Outright, Slowly Roasted or Crushed— Telegraph Wires Were Destroyed by the Fire Which Followed—Details Still Meagre.

Kaliispell, Mont., Aug. 31.—Twenty-eight dead and thirteen injured in the awful record of a wreck on the Great Northern road near Nyack yesterday morning. Nyack is a small station in the mountains, 40 miles east of this place. The tracks run up the mountain side.

A meagre report was received last night, saying that 17 lives had been lost, but details today show that 28 were killed and 13 hurt.

Passenger train No. 3 had just gone down the mountain and had reached the level when 28 wild cars loaded with shingles shot down from above and crashed into the rear of the passenger train. The special car of Assistant General Superintendent Downs of the Great Northern and a coach filled with laborers were crushed like egg shells.

The debris immediately caught fire and the flames were communicated to the sleeper, but that car, which had

miraculously escaped destruction in the collision, was according to the best obtainable reports, empty when it took fire.

The majority of these in the laborers' coach and in Mr. Downs' private car were either killed outright, slowly roasted or crushed to death or seriously burned and crushed.

Mr. Downs, his son and cook were caught under the debris and burned to death. Many of the laborers met the same fate.

Owing to the fact that the burning cars set fire to the telegraph poles and later destroyed the wires, relief could not be obtained for several hours, but as soon as news of the catastrophe reached Kaliispell a score of physicians and nurses and a wrecking train were hurried to the scene.

A train loaded with dead and injured arrived here this morning but no names other than those of Mr. Downs and his son have been secured.

WATSON WON'T STAND FOR ANY SLANDER ON SCHLEY.

New York, Aug. 31.—Admiral John C. Watson is quoted in the World as having said, in the course of a private conversation in Washington:

"If any naval officer asserts that Ad-

miral I will prefer charges against such an offender myself."

The remark, according to the World's correspondent, were brought out as a result of the retelling of some of the charges brought against Admiral Schley.

Washington, Aug. 31.—Commander Richard Wainwright, superintendent of the naval academy, came over to Washington from Annapolis today and spent some time in conference with Capt. Lemly, judge advocate of the Schley court, in reference to the testimony on the government side. Captain Lemly has been engaged in this kind of work for the past week, laying the base for the presentation of his case.

Mr. Hackett's attention has not yet been directed formally to the publication this morning ascribing certain expressions bearing on the Schley case to Rear Admiral Watson.

When the matter was referred to informally Mr. Hackett intimated that it was not one of sufficient importance to warrant letter writing by the department.

Admiral John C. Watson.
Admiral Schley is a coward, and the fact comes to my knowledge, I will see that the delinquent is given a chance to vindicate his opinion before a court.

ROMANTIC

Wedding of Man Aged 71 and Woman Aged 70.—Groom's Fourth, and Bride's Third Marriage.

Vandalia, Ill., Aug. 31.—A romantic wedding occurred here yesterday, the principals being John Thorp, 71, of Patoka, and Mrs. Catherine Pratt, 70, of Vernon. They slipped away quietly without their friends knowing anything about their intentions. The bride is the daughter of Francis Binion, of Vernon, who is 101 years old, and is still hale and hearty. This is the groom's fourth and the bride's third marriage.

COLUMBIA WINS

Newport, Aug. 31.—Columbia led the Constitution all the way in the 15 mile beat to windward today and turned the outer mark one minute and 20 seconds ahead of the Constitution.

At 2:10 this afternoon the Columbia is winner, barring accidents. She has a good lead and the Constitution allows her one minute and 11 seconds, making her victory positive and decisive.

MURDERER

Was Seen Near Kingsville—Officers and Posse are Now in Pursuit of Negro Francis.

Warrensburg Mo., Aug. 31.—Just as it was beginning to be feared that the negro, Francis, who murdered Mary Henderson had made good his escape, news came this morning that a negro answering his description had been seen to board a train at Kingsville and leave it this side of Strasburg. Strasburg is four miles west of Kingsville. Sheriff Koch and a large posse are now in the vicinity hunting for Francis and the first train for Strasburg will carry a large crowd of citizens from Warrensburg.

LITTLE CHILD SHOT BY A WATCHMAN.

Chicago, Aug. 31.—Because he would not move on when ordered to do so, Marshall Hurd, aged 7, was shot by Watchman Lyons. The boy died this morning. Lyons says he merely tried to frighten him.

NO RECOLLECTION

OF THE BARNESVILLE WRECK
HAS MR. BOSSCAWEN.

Injured Fireman Recovered Consciousness Friday and Was Able to be Out Saturday

Fireman Walter T. Bosscawen, who was badly hurt in the wreck at Spencer's last Sunday night, in which Engineer Milo Francis lost his life, was able to come up town today and get shaved.

The injured man has no recollection of the engine turning over, Friday morning being the first time that he was fully conscious.

Dr. D. M. Smith who attended him after he was brought to Newark, said that the main thing had been to establish a good circulation so that the small blood vessels and arteries could be cleaned out.

The unfortunate fireman's friends will be pleased to know that he has so far recovered.

Mr. Bosscawen is much gratified at the interest the Pennsylvania Knights Templars who were on board the wrecked train took in his case, and he is deeply pained over the death of his friend, Mr. Francis.

IS REVOLUTION OVER?

Washington, Aug. 31.—A dispatch from Sargeant of Machias regarding the situation of affairs on the Isthmus is regarded at the state department as indicating that the bottom has dropped out of the revolutionary movement.

BEET SUGAR PLANT WAS A FAILURE.

Benton Harbor, Mich., Aug. 31.—Failure of the Wm. Sugar company is announced and suits have been begun for \$107,000 on notes outstanding and for \$125,000 on bonds held by the Chicago Trust company.

During the last 10 years the operators have failed to secure enough beets in the local fields to run the factory. As a last resort the owners went to Shelby, Ind. where they contracted for 4000 acres of beets for this season's run. The factory cost \$320,000.

GOOSE BEWAILS LOSS OF ROOSTER.

Waterbury, Conn., Aug. 31.—A unique friendship between an old gray goose and a small white rooster on the R. Kelsey farm in Clinton was ended when the Kelseys cooked the rooster for dinner. The old goose utterly refused to be consoled, wasting its life away and bewailing its late love at the kitchen door.

Blaze at Antwerp.

Antwerp, Ohio, Aug. 31.—Four entire business blocks were consumed by fire this morning; loss \$10,000; insurance small.

ATTACK ON SHAFFER

Labor World Declares He Should Be Impeached.

The Leader is Renounced for Calling the Strike—Mr. Shaffer Replies by Declaring His Course Above Impeachment—The Crisis Approaching—Preparations For Labor Day.

Elwood, Ind., The Amalgamated strikers in this city were today surprised by the wide circulation of a printed letter from W. H. Evans, a prominent leader and former district vice president of the Amalgamated Association. He strongly advises the men to go back to work and complete their contracts, regardless of the situation in the east. It is understood the tin plate mills here will open Monday the open hearth department of the Carnegie.

Pittsburg, Aug. 31.—Reports from negle Mills at Duquesne are conflicting. Officials now say there is no strike, that there will be no strike and that the plant is working full today and will continue.

Pittsburg, Aug. 31.—The men at the open hearth furnace of the Steel Trust at Duquesne will strike tonight. This will tie up the open hearth department where 400 men are employed. President Shaffer will address a mass meeting of strikers tonight at Duquesne.

Cleveland, Aug. 31.—At the Crescent tin plate mills this morning there was a brief battle between the strikers and non-union men. About 20 men were engaged. Stones and other missiles were thrown and finally Andrew Peck a non-union man, drew a pistol and fired, the ball glancing from the fence and hitting George Labrecki in the leg. He was not seriously injured.

Pittsburg, Aug. 31.—An editorial in the Labor World, published here as the official organ of the International Tin Workers' Protective association, and the mouthpiece of the Pittsburg district of the Mine Workers' union and the Patternmakers' association, is a long and bitter attack on President Shaffer, and demands his impeachment for calling the present strike. The demand for the impeachment is made because it is charged President Shaffer compelled the steel workers to violate contracts; because he expelled the Chicago men and revoked their charter without hearing; and because the whole strike is unusual and has brought ruin and wreck to men who have made the Amalgamated association. The editorial gives 24 reasons why President Shaffer should be impeached.

The fact that George Powell, president of the Tin Plate Workers' Protective association of America; L. R. Thomas, president of the Patternmakers' National League, and Patrick Dolan, president of the United Mine Workers of the Pittsburg district, constitute the board of control of the publication, and that President Shaffer, himself, up to within a year ago, was a member of the board, would seem to lend considerable weight to the utterances of the paper.

Shaffer's Comment.
When pressed for some expression on the Labor World's impeachment editorial, President Shaffer said: "The paper has no standing in the labor world and is owned and edited by men bitterly opposed to me from the start. My course is above impeachment and the only damage the inspired article can do is to create a bad impression temporarily, but will not influence thinking people."

The injunction granted the American Sheet Steel company at Canal Dover, Ohio, against the strikers had the effect of doing away with picketing about the mill. The withdrawal of the pickets was on advice of the local council, who advised this course until after the council of the association at Pittsburg could make known what course to pursue in the future. United States marshals have served almost all of the 900 strikers with the order.

President Shaffer sent circulars to all lodges of the association reviewing the strike situation which he says is in good shape. He cautions all members against the South Chicago men who refused to obey the strike order, denounces them non-union, and declares their cards void.

Great preparations have been made here for Labor Day Monday. A grand rally of allied trades and labor unions of Western Pennsylvania is to be held at Ross Grove at which Shaffer, Dolan, Burns and Churchill, are advertised to tell the story of the strike. The rally will be under the auspices of the Amalgamated association, and is expected to be productive of much encouragement to the strikers. A parade of immense proportions is scheduled for this city, the big majority of the trades unions having arranged to participate.

Approaching the Crisis.
Although there is no change in the steel strike situation, much transpired Friday calculated soon to produce results. The conference between the Payview committee and the Amalgamated officials, the continued efforts of President Burns, of the Window Glass Workers' association to bring about arbitration or conciliation, the scathing editorial in the Labor World, calling for the impeachment of President Shaffer; the march of the strikers of McKeesport to Duquesne, and the decided effect of the injunction proceedings at Canal Dover, Ohio, all indicate that the crisis is approaching. What the outcome will be no man can tell.

The details of the conference of the Bayview committee and the Amalgamated officials has not yet been divulged by either party. The general belief is that the main object of the committee's visit was for the purpose of arranging some compromise by which the Bayview plant may be resumed. President Shaffer, on the contrary, says the two men did not come here as representatives of the Bayview lodge, and that they were simply here as individual members of the Amalgamated association, to explain in person the reason for their action in regard to the general strike order, and the reversal of that decision after Tighe's visit to Milwaukee. The two men have left for home and it is said a meeting of their lodge will be held upon their return to take action on their report. What that report will be cannot be learned here.

Notwithstanding the report from New York that no conference has been held or arranged for between C. M. Schwab and Simon Burns, looking to arbitration, the latter has not relaxed his efforts in this direction and seems determined to bring about some sort of a compromise.

Contempt of Court Charged.
Cincinnati, Aug. 31.—Before argument was begun before Judge Smith on motion to dissolve the temporary injunction against the locked-out carriage makers, ex-United States Attorney General Judson Harmon announced to the court that he would prefer charges for contempt of court against the defendants, charging that the temporary order had been repeatedly violated, and that there was not an hour when the plant of the American Carriage company was not patrolled and picketed by the strikers. Judge Smith made the temporary injunction perpetual. Hearing on the contempt charges set for Tuesday.

Found Strikers Lawabiding.
Indianapolis, Ind., Aug. 31.—United States Marshal Pituit returned from Hammond, where he investigated the reports that Eliza Baker's injunction was being ignored. He says the Conkey plant is about tied up. The strikers made a favorable impression on

EQUITABLE TAXATION

The Leading Issue of the Coming Ohio Campaign

Important Event of Political Significance Will be Appearance Of Mayor Tom Johnson Before State Board of Equalization, Demanding Increase of Railroad Taxation—Democratic Platform Covers The Real Issue.

Columbus, Aug. 31.—This week is slated as the last dull week of the campaign. At the Republican state committee rooms it is announced that General Dick will give all his time to work at headquarters after today, having completed his inspection duties in connection with the Ohio National Guards.

Secretary Malloy, who has been taking a few days rest, is also in the harness again, while Chairman Knapp, of the literary bureau arrived Wednesday to assume charge and organize his force of scribblers. Senator Patterson of the speakers' bureau, came today to remain during the campaign, but his work has been carried on by the chairman up to this time and is well under way, all the invitations to speakers having been prepared in advance.

At the Democratic headquarters the clerical force is at work making a record of the organization and arranging all the details for the hard work which is to be taken up later. Chairman Daugherty has been in town during the week, but he will not be here to remain until later in the season.

Mr. Charles Magruder, who has charge of the organization of Kilbourne clubs, began active operations this week. He has been engaged in correspondence with the club workers of the state for some time and it is his opinion that before the campaign is over this state will be alive with Kilbourne clubs of the sort that gets out and hustles for the ticket. The mistake of organizing clubs so early that they spend their strength and decline before election day, will not be repeated by Mr. Magruder this year. The state committee agrees with him that such organizations are more useful if brought together for quick, decisive work in a short, sharp campaign than if "strung out" through a long, dull period. Reports thus far received indicate that the Kilbourne clubs will prove a very important factor of the campaign.

An important event which is looked for this week, but he will not be here to remain until later in the season.

MR. WU TING-FANG

Astonishes Gay Newport--The Distinguished Oriental Among the 400--Dances as Well as He Talks--Amused Audience With Wit and Repartee.

Newport, Aug. 31.—The graceful dancing of the Chinese minister, Wu Ting-fang is the topic of conversation among the members of the "four hundred" at Newport. The oriental diplomat's skill as a conversationalist and after dinner speaker has long been known, but his ability to guide a partner in the waltz and two step was not discovered until last night, and Newport. Minister Wu was the distinguished guest of honor at the dinner-dance given by Mrs. Stuyvesant Fish at "Crossways." At the feast he delighted the others with his ready wit and repartee.

It was thought that when the feast would be over and the dancing begun that Minister Wu would be out of it, but in this the guests received the surprise of the evening. The celestial, arrayed in his richest native robes took his place in the first figure, having

Mrs. Fish as his partner, and the manner in which he lightly tripped about the polished ball room floor led to the conviction that Mr. Wu has not been wasting his time since he became China's minister at Washington.

In the dance which followed Minister Wu had as partners Mrs. Hermann Oelrichs, Mrs. C. C. Pomeroy, and several other society women. He needed no coaching, for, whether the dance was a waltz or two-step the Chinese minister was equally at home.

Minister Wu paid a visit to Narragansett Pier going over from Newport by trolley car. This was the first visit made by the Chinese minister to the pier, and on the board walk and in the pavilion attracted quite a little attention where he viewed the bathing from beneath his Chinese umbrella. Minister Wu was accompanied by a guard of honor, and was a guest at the Mail-house.

CHINAMEN

Assert They Will Commit Suicide if They Are Compelled to Perform Expiatory Ceremonies.

Berlin, Aug. 31.—The Kaiser's insistence on the humiliating conditions imposed in connection with the apology for the murder of Baron Von Ketteler, has demoralized Prince Chun and his suite, who have been sent from China to express the regrets of his government. They assert that if they are compelled to perform the expiatory ceremonies demanded by the emperor they will commit suicide afterwards.

Above Suspicion.

Glasgow, Aug. 13.—The corporation of Glasgow, at a meeting, decided to confer the freedom of the city on Andrew Carnegie.

SECOND TIME

Death Has Claimed John Kelley's Fiance—Wedding Scheduled for Saturday at Bradford, Tenn.

Nashville, Tenn., Aug. 31.—For the second time death has claimed the fiancée of John Kelley, who lives near Bradford, Tenn., in each case just a few days before the wedding day. At Bradford yesterday a Miss Puckett died of fever. She was to have been married to Kelley today. Kelley's first fiancée died some time ago within a few days of the day set for their marriage.

Blew Up Train.

London, Aug. 31.—Lord Kitchener reported: "Today a party of 250 Boers blew up a train on the Northern line near Watford. I deeply regret to report that the Lord, Col. Van Delfour of fresh guards, most promising officer, was killed. Other casualties are not reported."

Forsythe Denies It.

Washington, Aug. 31.—Captain Jas. Forsythe, who was quoted at Kansas City as criticizing the navy department for having elevated Sampson above Schley denies it. Acting Secretary Hackett today received a letter from Captain Forsythe to that effect.

IN SOCIETY.

The Alfretha Club gave a dance at Idlewild on Friday evening.

Miss Ethel Hunter entertained with a twelve o'clock luncheon for Mrs. Charles Sowersby of Baltimore.

Mrs. Althool entertained in honor of her guests on Thursday evening with a small card party.

On September 4 at Columbus, Miss Sarah May Hooper, daughter of Mr. and Mrs. H. Hooper, will be married to Mr. R. Colver McNeil. Miss Hooper attended Shepards College at Granville a few years ago, while Mr. McNeil is an alumnus of Denison and former instructor in Denison.

Mrs. Benjamin McMillen of West Newark, entertained a number of friends last Wednesday evening at a dinner party. The following were the guests of the occasion: Mrs. T. M. Ball, Misses Kate Morrill, Libbie McMillen and Kate Forry of Newark, and Mrs. J. M. Farnsworth and Miss Grace Farnsworth of Granville.—Granville Times.

A pleasant dinner party was given at Idlewild Park Thursday by Mrs. William Vogel in honor of Mrs. Ida Brough of Cleveland. A number of relatives and neighbors were present, and a most enjoyable time was spent by all.

Miss Helen Crane entertained with a dancing party on Friday evening at her home on North Third street. One of the amusements of the evening was the watermelon contest where the two having the largest number of seeds received prizes, the lucky ones were Miss Lettie Felix and Mr. Howard Brillhart. Miss Helen's guests were: Misses Mabel Phillips, Cassie Hildard, Ruth Speer, Mary Neal, Mary Webb, Amy Franklin, Stella Howard, Lillian Franklin, Edith Upson, Ida Moore, Lettie Felix, Dorothy Kibler, Lillian Crane, Elsie Hirschberg, Lulu Starr, Winnie Fulton, Lulu May Barriack, Hazel Thomas, and Miss Florence Gotteschal of Columbus. Messrs. Howard Brillhart, Fred Metz, Lee Wyeth, Donald Galbreath, Ralph Vance, Fred Metz, Paul Sheppard, Paul Franklin, Clara Woodbridge, Lawrence Gregg, Roy Hartshorn, George Harrington, Ralph Miller, Jerome Ferguson, Verne Priest, Alfred Goplen, and Charlie Rhoads.

On Tuesday afternoon in response to invitations issued by Miss Jessie Robbins quite a number of guests enjoyed the hospitality of her beautiful home on Buena Vista street. It had been planned to hold the party in the garden, but the inclemency of the weather made it necessary to change the plans. The pleasure of the afternoon did not seem in the least marred, and the fascinating game of euchre soon claimed every one's attention. At each table was a card bearing the rules of the game, and a dish of bon bons. Punch was served throughout the afternoon, and refreshments were served in the dining room. Miss Robbins was assisted by Mrs. Charles Kellenberger, Misses Helen Hunter, Louise Hunter and Jessie King. The prize for the most progressions was won by Mrs. Chas. Spencer, and the prize for lone hands by Mrs. Glover. Among the guests present were the following: Mrs. Omar Crane, Mrs. W. F. Upson, Mrs. Ella Updegraff, Mrs. A. W. Rosebrough, Mrs. Tom Montgomery, Mrs. F. F. Fee, Mrs. A. C. Dickenson, Mrs. Kemper Scott, Mrs. Charles Sowersby, of Baltimore, Md., Mrs. Anna Black, Mrs. W. A. Sprague, Mrs. J. H. Glover, Mrs. C. A. Hatch, Miss Montgomery of Philadelphia, Misses Nellie McCune, Kattie Simonds, Belle Havens, Louise Hunter, Nina Webb, Lisle, Edith Thomas, Daisy Hunter, Jessie King, Florence King Alice Dennis, Minnie Sprague, Mrs. Wm. Prout, Mrs. C. W. Miller, Mrs. W. W. Neal, Mrs. Theodosia Wilson, Mrs. F. G. Warden, Mrs. Geo. Blood, Mrs. R. M. Davidson, Mrs. J. R. Fitzgibbon, Mrs. E. S. Miller, Mrs. Fred Sites, Mrs. R. F. Collins, Mrs. C. H. Spencer, Mrs. E. H. Everett, Mrs. Frank Symons, Mrs. Chas. Kellenberger, Mrs. C. C. Rankin.

A picnic and theatre party was given at Idlewild Park on Tuesday evening in honor of Miss McCoy and Miss Denton of Lancaster, O. The party was made up of the following young people: Misses Lillian Franklin, Mary Neal, Edith Upson, Shrimley Pitser, Ruth Speer, Ida Moore, Emma Maylone, Clair Funk of Lincoln, Neb., and Misses McCoy and Denton of Lancaster; Messrs. Robbins Hunter, Harry Baker, Clare Woodbridge, Frank Webb, Tom Goldsboro, Nelson Pier-

son, Jerome Ferguson, Ralph Miller, Lee Wyeth, Paul Sheppard, and Dr. DeGow.

A very pleasant dinner party was given by Mr. and Mrs. Wm. Parrish at their beautiful home "Oak Wood." Partners for dinner were chosen by the matching of bouquets which had been previously distributed among the guests. Those present were: Mr. and Mrs. James E. Thomas, Mr. and Mrs. Frank Hall, Mr. and Mrs. J. H. Newton, Mrs. Vance, Mr. and Mrs. George Crawford, Mrs. Dr. Baldwin, Mr. and Mrs. Montgomery, Mr. and Mrs. J. M. Maylone, Mrs. Fleck, Mrs. Burner, Mr. and Mrs. Albert Porter, Mr. and Mrs. Wm. Prout, Mr. and Mrs. Henry Woodbridge.

In a letter recently received from Miss Wotring from Hanover, Germany she says that they are very pleasantly and comfortably situated in Mrs. Marr's flat with Mrs. Marr's excellent maid, and Mrs. Marr's two bright little daughters who have been acting as interpreters and guides. Mrs. Marr has gone on a trip to Russia and Norway before returning to America, and left the children in the care of Dr. and Mrs. Matchell. They are all studying German. They left Mrs. Smith and Miss Thomas in England, where they were still sight seeing. The following is quoted from Miss Wotring's letter:

"I shall not attempt to tell you what we have seen, because it is all written down in Baedeker and several other books. We enjoyed Holland very much, and somehow I was surprised to find it just as the books and pictures have it. I always feared that the funny costumes and the picturesque windmills, and the canals and the women who scrub, would be modernized before I got there. But it is all true. The Islanders of Maarken are most interesting because they are the most primitive in costumes and customs, still they have become rather sophisticated, sufficiently so to turn their backs when they see a camera if they do not also see money. I rather think we shall go up to the Hartz mountains sometime; they are so near. Otherwise I do not think I shall do any traveling this winter, but shall settle down to studying. I am to begin next week. And after the 10th of September I shall be in a German family, so I cannot talk any English. Paul has a tutor and Louis is studying at home with a Frenchman who comes every day to give the family German lessons.

AUTO COACHES

A Sixteen Mile Clip Easily Maintained For Over 100 Miles by a Mansfield Auto.

(Mansfield News.)

Volney S. Beardsley of the Beardsley & Hubbs company, has returned from Akron where he went to deliver an automobile to a purchaser. Mr. Beardsley made the trip overland, the distance being 102 miles in six and one-half hours without any difficulty. While in Akron Mr. Beardsley secured orders for three machines. It is gratifying to note that this product of a Mansfield manufacturing establishment is meeting with such success. The future of the automobile is bright with promise. The new automobile coaches which the Beardsley & Hubbs company is building for the Newark Auto-Coach Company are nearing completion. One of them will be ready for delivery by the close of the week and the other about a week later. Each will carry 15 passengers and will be operated on Third street, the principal residence street of Newark.

SEVERE STORM

Washes Out Bridges and Blows Down Corn in Vicinity of Brownsville--Rain Fell on Flint Ridge in Torrents--Much Damage Done.

Mr. J. S. Orr who lives a half mile southwest of Brownsville on the National road, who came to Newark today, reports that the most severe storm that has visited that vicinity in thirty years, occurred about 4 o'clock Friday afternoon. Great damage was done to bridges and to the corn in that section of the country, the corn in the vicinity of Linnville being nearly all blown down.

Mr. Orr reports that rain fell in torrents on Flint Ridge and the water flowed down off the ridge into Brownsville and Gratiot in veritable rivers. The road was covered with water and the water between Brownsville and the Robinson place on the road was nearly three feet deep.

The big arch culvert a mile west of Brownsville, constructed many years ago, by the government at the time the national road was built, was partly washed out and it is estimated that it will cost \$1000 to repair the damage to this culvert alone.

A bridge near Elliott Dispennett's place was washed away and others in that vicinity are reported to be washed out or badly damaged.

The rain fell in three sections, the heaviest shower occurring about four o'clock, when it rained steadily and very hard for nearly an hour.

Richard Courson of Jacksonville, says the storm in that vicinity was severe, and an empty bucket standing in his yard was rained almost full.

No injury to persons or loss of stock is reported from this section, but the storm in the vicinity of Summit Station Friday as wired the Advocate that day destroyed two barns, killed one horse and four hogs.

The heavy rain of Friday afternoon did considerable damage throughout the county, principally to the crops.

Farmers coming to town say the corn all along the roads is lying flat. At Fleetown Hog run overflowed its banks and the cellar under the grocery had five feet of water in it.

Mr. Lester N. Bradley who was attending a funeral in Hanover township, reported that Brushy Fork was on a rampage, and fences and sheds were washed away.

Two spans of the trestle over Hog Run, about four miles from Newark, on the Shawnee division of the B. & O., were washed out Friday.

The regular Shawnee train this morning was abandoned, but a force of men fixed the damage so that the train at 1:45 this afternoon went on schedule time.

A man came in from Franklin township today and stated that a storm in that part of the county was very severe. Rain fell in torrents. He saw one big bottomland cornfield that would have produced 55 bushels to the acre wholly destroyed. The owner says he will turn his in to the field. This field was along the bank of a small stream that overflowed its banks and destroyed the growing corn. People from the vicinity of "Little Clay Lick" says that stream has never been known to be so high as it was Friday evening.

Damage Near Gratiot.

Gratiot, O., Aug. 31.—This vicinity was visited yesterday afternoon by the heaviest rainfall for years amounting to three and one-third inches, nearly all of which fell in less than three hours. Streams rose rapidly and considerable damage is reported by washouts. Crops and fruit were also much damaged by rain and wind.

Storm in Muskingum County.

Zanesville, O., Aug. 31.—The most severe rain and electrical storm that has visited this part of the country in the past year was experienced yesterday. Streets were overflowed, traffic stopped and many pranks played by the lightning.

John Etzel's home and W. T. Forsythe's and Henry Munch's residences were struck by lightning.

A washout on the B. & O. caused by the tracks being overflowed occurred near Sonora. A washout occurred on the W. & L. E. railroad about a mile north of the city caused a small wreck. The yard engine and three cars were ditched, but no one was injured. The accident was caused by the ballast being washed out from the ties, causing a lowering of the rails.

The directors of the Alexander III museum in St. Petersburg have defied the holy synd in its ban against two paintings by Repin. One is a portrait of Count Tolstol, barefooted, in the dress of a peasant. The other is a symbolic picture called "Get Thee Behind Me, Satan." The exhibition of these paintings was prohibited in Moscow, yet they have been bought for a national art gallery.

An illustration of the growing demand for athletic clericalism was recently given by a country curate who, says the London Telegram, received notice to quit because he was not a good cricket player. Though unexceptionable in other respects, his vicar declared that "what this parish really needs in a good, fast bowler, with a break from the off."

As a sign of the care with which American officers pay regard to local sentiment attention is called to the act of Captain Michael, who had charge of the recent execution of six murderers in Manila. He chose a position where the condemned men faced the east, and before they dropped they had one last look at the morning sun, which is so dear to the oriental.

The investigation made by Professor Beyer for the American Ornithological association of the Louisiana gulf coast for the purpose of stationing wardens to protect the sea birds shows that nearly all the breeding places of the birds had been destroyed by killing the birds themselves and taking their eggs. Not a trace of birds was found on several islands, at one time the home of millions of sea fowl.

It is well known that the ground on which Apsley House stands originally formed part of Hyde park and that it came into private hands through a kind hearted grant by George II to an old woman who kept an apple stall there and who had been ordered to move away by the then ranger of the park. The site was sold after the old woman's death by her representatives to Sir John Apsley for a large sum.

The introduction of the Shetland pony into this country has added another means of healthful enjoyment to the young folk. He is an affectionate, intelligent, picturesque little fellow, obstinate sometimes, but mischievous never, and can be made a great pet of by children fond of animals. Especially is this the case when he has been bought young and grown up with the children. They may hug and caress him as they would a big dog, and he will romp with them all day long.

A new bank has been chartered and will presently open for business in the arcade of the Empire building, at Broadway and Rector street, New York city, which will innovate by having its hours from 9 a. m. to 6 p. m. continuously. This industry has another peculiarity—the banking will be for the tenants of that one building, who from top to bottom are big steel and iron companies of recent formation, with billions of capital and no permanent connection with banks.

Our navy department is reported to be planning the construction of two new armored cruisers capable of steaming 23 knots an hour and having a steaming radius of some 10,000 miles. The new Russian cruiser Novik, built in Germany, has a speed of 25 knots an hour, but the Novik is a small vessel of only 3,000 tons displacement. If the big new armored cruisers of the American navy enter the 23 knot class, they will beat the world, all things considered.

It is a curious fact that although Missouri elected its first governor more than 80 years ago, is one of the largest and most populous of the states of the country and that from its geographical position on the border line between north and south has occupied an important position in national affairs not one of its governors has ever been conspicuous in national politics with the single exception of B. Gratz Brown, who ran for vice president in 1872 and was overwhelmingly defeated for that office.

J. C. LARWILL

DIED ON FRIDAY AFTERNOON AT MANSFIELD, OHIO.

Deceased Brother-in-Law of J. B. Moore of Newark, Was Well Known in This City.

Mr. John B. Moore of the Newark Savings Bank, has received a telegram announcing the death of his brother-in-law, Mr. John C. Larwill, which occurred at Mansfield, O., Friday afternoon, after a long illness. No details are given in the dispatch but the message announced the time of the funeral to be Monday afternoon.

Mr. Larwill was very well known in Newark, having been connected with W. D. Lee, J. L. Birkey, Eli Hull, William Shields and others in the development of the Hocking Valley coal fields.

He was a capitalist and a man of wealth and influence in the locality in which he lived.

His funeral will be on Monday, at Wooster.

RECEPTION

GIVEN IN HONOR OF THE NINTH BATTALION.

Three Hundred People Present—Visitors Pleased—Notes From the Ninth Battalion's Camp.

The colored citizens of Newark turned out in force Friday night at the reception given at Brennan's Hall by Messrs. U. G. Craig and Samuel Henry. The reception was given in honor of the officers and men of the Ninth Battalion, who are now in camp at the state ground, and the two hundred who were present spent a most enjoyable evening. An elegant lunch was served, after which dancing was indulged in until one o'clock, elegant music being rendered by the People's band of Columbus, consisting of ten men.

The officers are much pleased with their treatment by the citizens of Newark and are greatly pleased with the camp grounds.

At the camp of the Ninth Battalion the officers and men are making preparations, especially at headquarters, for the entertainment of the visitors on Sunday.

This morning the inspection of rifles by Col. O. J. Hopkins, took the place of the company drills, but otherwise the regular routine was carried out.

The Lieutenant Colonel of the 49th U. S. V. in the Philippines of Columbus, and Captain Bass of Circleville, of the same regiment, are guests at headquarters.

The health of the camp continues to be excellent, there being no cases of sickness.

MRS. ELMER FLEMING, of Minneapolis, Minn., writes from 2535 Polk street, N. E.:

"I have been troubled all my life with catarrh. I took Peruna for about three months, and now think I am permanently cured. I believe that for catarrh in all its forms Peruna is the medicine of the age. It cures when all other remedies fail."

"Mrs. C. Nickel, Hebron, Neb., writes: 'I suffered from weakness for ten years. The least exertion caused me pain in the middle of my chest and difficulty in breathing. When I would awake in the night my heart would palpitate so that I often could not sleep. I took Peruna and now I can do all of my work easily without getting short of breath.'

"Peruna is the best medicine for me. It strengthens my nerves. It is just what I need. As long as I use Peruna I do not know anything about weakness."

"I have never found a medicine that makes me feel so strong and vigorous as Peruna. I shall always keep Peruna

in the house. It ought to have a place in every home.

"The longer I use it the better I like it. I would not give your book, 'The Ills of Life' away for any price if I could not get another."

Nervousness is due to bloodlessness of nerve centers.

To enrich the blood is to cure nervousness. Diseases of the nervous system call for more blood and better blood. Peruna answers this call by giving the system a perfect supply of pure red blood. Thus it is that Peruna is a natural tonic. It does not temporarily stimulate the nervous system, but permanently invigorates it. Peruna regulates the supply of blood to the various parts of the system. When one part has more blood than it ought to have, another part is deprived

of its natural supply of blood. This sets up all sorts of functional irregularities so common to people who spend much time indoors. Peruna cures these affections by regulating the supply of blood and giving to each part of the system exactly that portion of the blood to which it is entitled.

By producing a natural appetite, correcting digestion and regulating the supply of blood in the system, Peruna removes the cause of a thousand and one maladies very common in warm weather.

The fatigue and languor of hot weather is directly due to impoverished blood. This condition prepares the way for the advent of almost any disease. Peruna protects the system against the ailments of summer by fortifying it with a regular supply of the best blood.

MIRACULOUS

ESCAPE OF YOUNG WOMAN FROM SUDDEN DEATH.

Against Protest of Her Mother Miss Shields Took a Trip in a Captive Balloon Which Burst.

Columbus, O., Aug. 31.—Miss Lucy Shields of this city, and Harley Parker, of North Lewisburg, had a miraculous escape from sudden death at the State Exposition grounds yesterday afternoon. Against the protests of Miss Shields's mother, they took a trip in the captive balloon although at the time the weather was very threatening and there were indications that a storm was brewing.

After the balloon was about 100 feet high the wind came up and blew the gas bag about so that Miss Shields became frightened, and, at Parker's request, the man in charge began to lower them. Through some unknown cause the balloon burst and fell for about 30 feet like a shot. Then the silk envelope of the balloon spread out like a parachute and checked the descent. By this time the wind was blowing a gale, and to this fact is probably due their escape from serious injury.

The wind blew the balloon toward a high tree, on which the silk caught, suspending the basket about two feet from the ground. Neither one was hurt in the slightest, although Miss Shields had fainted when the balloon burst and was unconscious when she was taken out of the basket.

Miss Shields is a well known young woman of this city, and this week is acting as one of the waiters at the restaurant operated by the ladies of the Presbyterian church.

Mr. Parker is quite a prominent young man of North Lewisburg, and is visiting Miss Shields in this city.

Chillicothe—Miss Carrie V. Sterrett, daughter of a prominent jeweler here, has suddenly left home. Her escapade with John P. Brand it will be remembered, was exploited in the newspapers some weeks ago and her mother went subsequently to Chicago and brought her back to her home in this city. Brand, however, has since been in communication with her, and it is said she received a telegram from him, presumably asking her to join him, and she took the first train for Chicago. Brand is already married, but her infatuation for him seems complete. Her parents are heartbroken because of this new development in the unfortunate case.

BROTHER

On an Adjoining Pole Witnessed the Horrible Death of the Telephone Lineman.

Louisville, Ky., Aug. 31.—Wm. Johnson, a lineman of the Cumberland Telephone company, residing at Sellersburg, Ind., met a horrible death at Frankfort and Young avenues Friday afternoon. A broken wire fell over the trolley wire of the street railway and Johnson received the full current, being burned to death. He was sitting on the crossbar of a pole at the time and, in falling, his body became entangled in the wires, and it was a difficult task to bring it down. Johnson's brother and another lineman were on the next post when the accident occurred and received severe shocks but were not seriously hurt. The dead man was 27 years old and unmarried.

NARROW ESCAPE—"Doc" Tilton, while engaged in picking peaches at his home in McKean township, had a narrow escape from serious accident on Friday. He was standing on a ladder, which commenced to slip, and Mr. Tilton was thrown backwards, falling on his back and shoulders, badly bruising but not seriously injuring him.

Toledo—Mrs. Josie Shephard was found dead in her home. She had driven a nail in the wall somewhat higher than her head, tied a clothes line to it and then put her head through a noose in the rope. She had deliberately tugged at the line until life was extinct. She left a pathetic note to her husband telling him how dearly she loved him, and giving her reason for committing suicide that she had discovered he was about to desert her for another. This, the husband declares is without foundation.

IN THE LODGE ROOM.

B. P. O. E.

Considerable interest is felt on the part of Newark Elks in the approaching State Encampment of Elks, which will be held at Marietta beginning on September 15. Every lodge in the state is entitled to be represented by one delegate, and in addition to this there will be a large attendance of the members of the order generally, it being estimated that there will probably be 3000 Elks in Marietta. In this connection a strong movement is on foot on the part of the Newark Elks to bring the Grand Lodge meeting of Elks here next year, if possible. A push committee has been appointed to work the matter up and see what can be done. It seems to us that it would pay the Board of Trade to take hold and co-operate with the Elks in this matter. The bringing of two or three thousand Elks to Newark next year for a stay of several days, would not only be a great benefit to the city in a direct business way, but it would also be a great advertisement for Newark. This is an opportunity that should not be missed.

KNIGHTS OF PYTHIAS.

At the regular meeting of Newark Lodge, No. 13, K. of P., held on Thursday evening, there was a good attendance of the members, but aside from the receiving of one petition for membership, only routine business was transacted.

We observe that a number of cities in Ohio are striving to get the next State Encampment of the Uniform Rank Knights of Pythias. Why does not Newark go after this. There is no place in the state equal to it for central location and railroad facilities, and the Encampment grounds would make an ideal place for the Knights. Some one should move in this matter. There are, so far as is known, only two other towns, Carey and Findlay, asking for the same recognition, and neither has developed much strength in the contest. All the regiment asks of the place of encampment is the tents, grounds, water and electric lighting. It will bring to this city over six hundred men for a period of ten days, and the encampment would mean the expenditure among Newark merchants of a considerable sum of money.

MODERN WOODMEN.

Cedar Camp No. 4727, Modern Woodmen of America, held its regular meeting on Wednesday evening. There was an unusually good attendance of the members. In addition to the usual routine business, three applications for membership were received. A committee was appointed to draft resolutions of sorrow on the death of

our late neighbor, George W. Henry, who died Tuesday evening, August 27. Neighbor Henry was a member of the Woodmen but 41 days, having joined the camp July 17. He was buried on Thursday afternoon at 2:30 o'clock. Neighbor Higginbotham preached the funeral sermon at the house of Neighbor O. B. Young. Venerable Consul of the camp, conducted the services at the grave.

The Sandusky and Put-in-Bay excursion committee met at Neighbor Sherburne's office last evening and completed arrangements to advertise the excursion to be given by Cedar Camp on Thursday, September 12. Arrangements have been made with the B. & O. to stop the train at Vanatta, St. Louisville and Utica. The fare for the round trip to Sandusky will be \$1.25 to Put-in-Bay 50 cents additional. The tickets will be on sale next week and only a limited number of boat tickets can be sold. See advertisement in the papers.

KNIGHTS OF ST. JOHN.

The many friends of the Knights of St. John in the city are manifesting considerable interest in the prize drill in which the Knights will take part at the Ohio Exposition on September 5, at 2 o'clock. The four senior and two junior commanderies of the Fourth regiment, will enter the contest—Catholic Columbian.

HOME GUARDS OF AMERICA.

On last Tuesday evening the Home Guards of America held a very important meeting at their hall in this city. On this occasion a class of about 25 candidates was initiated into the Camp, an efficient team from Columbus doing the work. At the close of the work a fine banquet was served. The occasion was greatly marred by the sudden death of one of the members, Mr. George W. Henry, who expired while seated in the lodge room.

IND. ORDER FORESTERS.

Court Licking, No. 1318 Independent Order of Foresters, held its regular meeting on Monday evening, and two candidates were initiated. After the work had been finished refreshments were partaken of, consisting of ice cream and cake.

MASONIC.

Warren Chapter, No. 6 R. A. M., will hold its regular meeting on next Monday evening. There will be several petitions to be ballotted on and it is important that all members who can do so will attend.

The regular meeting of Newark Lodge No. 97, F. & A. M., will be held on Friday evening of next week.

LABOR DAY.

Get your tickets Sunday for Mansfield and avoid the rush. Special trains will leave Newark 7 a. m., 7.25 a. m., and 7.50 a. m. Rate only \$1.

T. L. Watson Ph. D.

The Granville Times says the following of Prof. T. L. Watson, who as was recently announced in these columns, has been chosen as the successor of Prof. W. J. Tipton at Denison university:

Dr. Watson is a man about 40 years of age. After completing his college course he took graduate work at Cornell University from which institution he received his doctor's degree. After receiving his degree he taught in a number of schools, but in recent years he has spent most of his time in field work in Georgia and Virginia. He was also a member of the Peary relief expedition and spent some time in studying the geology of Greenland. He is at present at the head of the State Geological Survey of Georgia. He is a writer of note and has published a number of celebrated geological articles. He comes to Denison highly recommended as a scholar, a gentleman and a Christian.

Assisted by CUTICURA OINTMENT, the great skin cure, for preserving, purifying, and beautifying the skin of infants and children, for rashes, itches, and chafings, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, and for all the purposes of the toilet, bath, and nursery. Millions of Women use CUTICURA SOAP in the form of baths for annoying irritations, inflammations, and excoriations, for too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sensitive, antiseptic purposes which readily suggest themselves to women, especially mothers. No amount of persuasion can induce those who have once used these great skin purifiers and beautifiers to use any others, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines in ONE SOAP at ONE PRICE, the best skin and complexion soap and the best toilet and baby soap in the world.

Complete External and Internal Treatment for Every Humour.
Consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle. CUTICURA OINTMENT, to instantly allay itching, inflammation, and irritation, and soothe and heal; and CUTICURA RESOLVENT, to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the most torturing, disfiguring, and humiliating skin, scalp, and blood humours, with loss of hair, when all else fails. Sold throughout the world. CAPTURING A PASSENGER.

The Hackman Tried Many Plans, the Last a Funny One.

"I like perseverance in a man, even in a hackman," began Peterson, "and there is one particular fellow doing business in Washington who possesses that quality in the superlative degree. "When I visited the Capital City, I had my mind fully made up to have nothing to do with the hackmen, so when I stepped off the train and a crowd of these gentry began shouting at me I simply shook my head and passed on. One of them, however, was not to be thus easily disposed of. Dancing around in front of me so as to block my progress, he vociferated:

"Hack, mister? Take you to the Washington monument or the capitol? Only half a dollar!"

"Again I shook my head. "Smithsonian institution or treasury building? Take you to both of 'em for 75 cents?"

"Still I shook my head. "Arlington and Fort Myer? Drive you over and back for \$2?"

"As before I responded with a shake of the head. "Navy yard or Soldiers' home? Either price for a dollar?"

"Another shake of the head. "Want to go to the White House and see the president? Drive you right there for 50 cents?"

"More head shaking. "Patent office or state department? Same price as the White House?"

"Another shake. Mind you, all this time I hadn't opened my mouth or uttered a word, and from the puzzled look on the hackman's face I thought I had him about discouraged. But as I showed past him, thinking to make my escape, his countenance suddenly brightened up and I heard him mutter:

"By George, I've hit it now! I'll try him just once more! And then, running in front of me again, he spelled out on his fingers in the deaf and dumb alphabet, with which I chanced to be familiar, 'Deaf and Dumb asylum? Take you right to the door for a quarter?'" — Woman's Home Companion.

LAUNDRY LINES.

If coffee is spilled on linen, the stains can be removed by soaking the part for 12 hours in clear cold water to which a little borax has been added.

After you have washed and ironed your ribbons draw them swiftly under the flatiron, holding it on one edge. Do this two or three times and your ribbon will not be stiff, but soft and pliable.

To wash very yellow or grimy things make an emulsion of kerosene, clear lime-water and turpentine in equal parts. Shake them together until creamy, then add a cupful to a boilerful of clothes and boil for half an hour.

Acetic acid (concentrated vinegar) will restore colors that have been injured by the alkali in soap or by soda, ammonia or substances of a similar nature. Conversely stains made with acids, which are hostile to some dark colors, may be removed with dissolved soda.

Bugs In Vegetables.

People who have an objection to bugs in their food need to take much pains with the cleansing of vegetables, especially succulent plants, such as asparagus, greens, lettuce, etc., before cooking or serving up raw. If left for a while, tips downward, in well salted water, the plants will drop an interesting assortment of discouraged living creatures on the bottom of the vessel, and more may be gathered by carefully brushing and rinsing the crevices and hollows of the plants. When cooked, this animal food may be harmless to those who like it, but in uncooked salads it is possible to swallow dangerous germs unless they are knocked out by the help of antiseptic salt. The same precautions are commended to prudence and refinement with respect to fruits. — Medical Record.

Depew and Platt.

Chauncey M. Depew used to have in his collection of curiosities a certain telegraphic dispatch which never failed to interest the politicians to whom he showed it. The telegram was sent to Mr. Depew, then president of the New York Central railroad, by Mr. Platt shortly before the latter's election to a second term in the senate. It is dated a few stations above Poughkeepsie and reads:

Please stop the noon express here to take on Mr. Platt and

"I stopped the train gladly," Mr. Depew would say when he exhibited it. "I am always willing to do a favor for a man who turns a joke on himself."

The Marriage Cure.

One remedy against indigestion is matrimony. At least The Lancet tells us that it is the celibate young barrister, the lonely curate in lodgings, the struggling bachelor journalist or business man or clerk who suffers most from premature dyspepsia because he eats alone. He generally reads during his meals, which is bad, or he reads directly he has bolted his food, which is likewise bad. Obviously, therefore, matrimony is a bar to indigestion. — Lady's Pictorial.

Tastes Differ.

Dealer—Here, madam, is a horse I can recommend—sound, kind— Old Lady—Oh, I don't want that sort of a horse. He holds his head high. Dealer—Eh? Old Lady—I like a horse that holds his nose close to the ground, so he can see where he's going.—New York Weekly.

Which Was It?

"Are we slaves or are we free men?" thundered the orator. "I pause for a reply." "Some of us are married," came the answer from the last row of seats. — New York Sun.

LABOR DAY

Newark Will Send a Big Crowd To Mansfield Monday.

Tickets Should be Obtained Before Monday Morning—Three Special Trains—Revised Program—Rate From Newark \$1—General Suspension of Business on Monday September 2.

Providing the weather is pleasant, an immense crowd will leave Newark for Mansfield next Monday morning to participate in the Labor Day celebration.

The Baltimore and Ohio railroad has provided fifty extra cars to accommodate the Newark crowd, and will run three special trains from this city to Richmond's county seat.

B. and O. ticket agent Frank C. Bartholomew told the Advocate this morning that his office would be open all day Sunday, beginning at 9 o'clock in the morning, for the sale of tickets and he advises those who wish to go to Mansfield on Monday to get their tickets tomorrow and avoid the great rush the following morning.

The tickets from Newark to Mansfield will be sold at \$1.

The first special train will leave Newark at 7 o'clock Monday morning.

The second special will leave the city at 7:25 a. m., and the third special will start for Mansfield at 7:50 a. m.

The trains returning will run in four sections so that Newark people may leave Mansfield at any of the following hours: 5:20, 7, 7:30 or 9:40 p. m.

There will be a general suspension of business in Newark on Labor Day and all of the local union organizations expect to send delegations to Mansfield. A list of the stores that will close has been printed in the Advocate and is repeated in another column of this issue.

Clydesdale Ointment

on the hurt spot. It will cool and soothe the wound right away and stop the pain, too. In a few days it will be all right again. There won't be any scar, either. CLYDESDALE OINTMENT is nature's cure for hurts of all kinds. It was discovered many years ago by a famous dale, a Gypsy, who later became a famous surgeon. It is not a cure-all, but it does cure all wounds, pains and cuts. Cheaper and safer than to let it cure itself. Price 25 cts. per jar, at all dealers.

TWO VALUES.

HERE are two values to every purchase—what it costs and what it pays you. Cork costs 8 cents a pound, but if you are drowning half a mile from shore, its value would be "not what you pay for cork, but what cork saves you." When a woman buys soaps she often confuses the two values. She sees only what she pays. She overlooks what she receives. Now a single cake of Ivory Soap pays back from ten to twenty times its cost in the saving it effects. Test it yourself! Vegetable Oil Soap. Ivory white. It floats!

DARING

But Futile Attempt to Escape From Jail—Prisoners Thwarted by the Jailer's Daughter.

St. Louis, Aug. 31.—A daring attempt to deliver 33 prisoners from the Madison county jail at Edwardsville, Ill., was made by James Johnston, a man under indictment for the murder last summer of James Ruburn, a citizen of Alton.

But for Katherine Hotz, the daughter of Jailer George Hotz, the attempt would have proved successful. As it was 17 of the 33 prisoners, among them five alleged murderers, managed to escape from their cells into the main corridor of the jail, and there kept the sheriff, his deputies, Turner Thredley and a large number of citizens at bay for three hours.

The city fire department was finally called in and after turning on half a dozen streams of water the prisoners cried for mercy. They were then handcuffed and returned to their cells.

Broken Mining Contracts.
Hazelton, Pa., Aug. 31.—The miners' convention having adjourned President Mitchell has gone to Minersville to address a labor demonstration. He will then tour the coal regions about 10 days. The convention authorized the executive officers to engage counsel to assist Attorney General Elkin defend the constitutionality of the new company store law, against which objections have been filed by counsel on behalf of several coal companies. This is one of the laws passed by the last legislature at the request of mine workers. The convention authorized the respective district executive boards to declare local strikers where last spring's agreements have been violated by the companies. Preparations will be commenced at once by National President Mitchell and the three district presidents, for bringing about a joint conference with the operators. They will collect all data relating to alleged breach of contracts and such other matter as

may be necessary, and will seek an interview with each president of the coal carrying roads in New York.

Camp's Wounds Fatal.
Frankfort, Ind., Aug. 31.—Adam Camp, the victim of Tuesday night's shooting affray, died after being removed from the hospital to his home. George Matthews, his assailant, when informed that Camp was dead, exclaimed: "Oh, no; you are fooling me." Then a tremor convulsed his entire frame and he made an effort to smile and said: "Well, what's done can't be helped." Mrs. Matthews occupies a cell with her husband. Hearing of the death of Camp she broke down and wept bitterly. Camp is survived by a wife, daughter 17, and son 11. Matthews was jealous of him, and finding Mrs. Matthews in his company Tuesday night, shot him five times.

Last Echo of the Conclave.
Louisville, Aug. 31.—With the last strains of "Home Sweet Home" at the supplementary ball Friday night, at the horse show building, the last echo of the 28th triennial conclave of Knights Templars was heard. The various commanderies had departed, leaving only a handful of Knights in this city. The ball was attended by some of them, but mainly by members of the local committees and women, including many sponsors for various commanderies, and by persons who were unable to attend the grand ball Thursday night. The illumination ceased at midnight and at that hour reception headquarters were closed.

No Complaint Against Grover.
Pittsfield, Mass., Aug. 31.—The arraignment of Cassius Scranton of New Marlboro, in court on a charge of fishing bass less than eight inches in length, brought out the announcement that deputy fish and game keepers had interrupted a fishing party composed of ex-President Grover Cleveland, Dr. Bryant of New York and Mr. Scranton on Lake Garfield, Wednesday. The deputies found a short bass in the boat, and upon being informed by Mr. Scranton that he had taken it, he was summoned into court and fined \$2. No complaint was made against Mr. Cleveland.

ROOSEVELT

Reviewed Troops at Camp Lincoln. Vice President Given a Reception by Soldiers.

Springfield, Ill., Aug. 31.—Illinois gave Vice President Roosevelt a royal welcome when he visited the state capital, the occasion of his visit being to attend the encampment of the First cavalry, engineers and artillery, of the Illinois national guard.

When Mr. Roosevelt and party arrived 3,000 people were waiting at the station. The vice president was met by Governor Yates and military staff, and with four troops of the First cavalry as an escort the party went direct to the executive mansion. State and federal officials and prominent men from all over the state formed part of the escort.

Vice President Roosevelt was accompanied by United States Senator Cullom, Vice President McCullough of the Chicago and Northwestern railroad, Colonel J. H. Strong and wife of Chicago and Mrs. Harmon their guest. Senator Mason and former Congressman Lorimer were among those who vice president and party left the executive mansion an informal reception was tendered the vice president, among the callers being state and federal officers, supreme court judges, members of state boards and officers of the Illinois national guard. On arrival at the executive mansion the vice presidential salute of 19 guns was fired by a squad of Vicksburg. The vice president and party left the executive mansion and, escorted by four cavalry troops, Governor Yates and staff and other national guard officers, proceeded to Camp Lincoln. On the party's arrival at Camp Lincoln, where several thousand people assembled on the parade ground, a salute of 19 guns was fired. The first cavalry band headed the procession from the camp gate to general headquarters, playing "Hail to the Chief."

As the vice president and Governor Yates passed the line of troops there was great cheering. An informal reception was held at general headquarters. A review of all troops in camp was followed by the evening parade.

At the close of the parade a state dinner was given at general headquarters. Between 500 and 600 prominent military men and civilians from all over the state were present. Governor Yates presided, and after dinner introduced Vice President Roosevelt as the "hero of the battle of San Juan," proposing three cheers for Roosevelt, which were given with a will. The vice president made a short talk and was followed by Colonel Edward C. Young of Chicago, commander of the First cavalry. The vice president afterward addressed the troops and several thousand civilians from the bandstand. The vice presidential party then returned to the executive mansion, where they remained until this morning when Mr. Roosevelt and party returned to Chicago.

The Delaware Disaster.
Philadelphia, Aug. 31.—It is now reasonably certain that at least 25 persons perished as a result of the explosion of one of the boilers of the steamer City of Trenton on the Delaware river Wednesday afternoon. This conclusion is reached by the police authorities through the fact that 14 persons who are reported by their relatives or friends to have been on the steamer have not yet been found. These missing persons, with 11 bodies already recovered, make a total of 25. Ten persons are still in a serious condition as a result of the disaster, of whom four may die. The wrecked vessel has been floated.

Racing Stables Burned.
St. Louis, Mo., Aug. 31.—Fire that broke out in the southwest corner of the Fair Grounds race track consumed about a dozen stables, valued at \$5,500, and burned to death a number of valuable horses. Great excitement prevailed during the fire. Horses were turned loose and run away in every direction. It is impossible to learn the names of all the animals consumed, but it is known that Tom Cromwell, Miss Faustus and Silent Brook met their death.

Culbert's Little Saunter.
Sioux Falls, S. D., Aug. 31.—Fred Culbert, who left New York May 1 to walk to Sioux Falls on a wager of \$5,000, arrived here at 4 o'clock Thursday afternoon, 32 hours ahead of time, having walked 2,200 miles. Culbert left without a cent and had not slept in a bed since his departure from New York. He was given a reception here.

Inquiry Into Islander Wreck.
Victoria, B. C., Aug. 31.—A court of inquiry into the loss of the steamer Islander, which was wrecked off the coast of Alaska, resulting in the loss of many lives, will begin its sitting here Tuesday morning. Captain Gaudin, local agent of marine, will hold the investigation.

Windstorm in Michigan.
St. Joseph, Mich., Aug. 31.—The fiercest wind storm in years swept this section. After a terrible experience, the steamer City of Milwaukee reached here from Chicago, and landed over 400 passengers with difficulty.

After Peru Copper Mines.
London, Aug. 31.—An American syndicate, says a dispatch from Lima, has begun buying the Cerro de Pasco Copper mines.

A. I. FRENIER

WRITES HOME FROM MANILLA BAY TO HIS MOTHER.

Had Many Storms in Crossing the Ocean—Took Part in Aguinaldo's Capture.—Curios.

Mrs. E. A. Frenier of Granville, is in receipt of a letter from her son, A. I. Frenier, who at the present time is stationed at Manila on the U. S. S. Vicksburg. The following extract is made from Mr. Frenier's letter:

We have been in Gibraltar, Spain, Port Said, Egypt, Naples, Italy, Aden, Arabia, Colombo, Africa, Singapore, India and passed through the Suez Canal. We saw a great many different costumes in Singapore as it is supposed to be Indian. The inhabitants are mostly Chinese, with a few Japanese. In Singapore instead of having horses they have a two wheeled cart, called a rickshaw, with a Chinaman to pull you around. In Aden, Arabia, we rode some of the queerest camels I ever saw.

We had many storms coming across the western ocean. When we came through the Red Sea we struck a gale and a huge wave came over the forecastle and swept a man overboard. He was not recovered. We dropped the life boat and very nearly lost it and its crew, for when it came along side it stove in its sides, yet it did not sink on account of the air tank.

I am still in the best of health, in fact I could not wish for better. I am now a first class apprentice, having passed next to the highest in my examinations. In small-aim marksmanship I got rated 500, which the highest grade.

I presume you have heard how we captured Aguinaldo, the insurrection leader, although it did not mention us in the papers. After we got through the exploit, we captured several hostile towns, but none of them showed any fight. We steamed in and gave them 45 minutes to surrender. Upon their granting our request we went on shore and inspected them.

These islands are in the torrid zone and it is very hot here. We have no winter the year around, but instead, rainy seasons. We have fruit the whole time, such as bananas, mangoes, oranges, lemons and pineapples.

Our ship the U. S. S. Vicksburg is stationed here, it may be for some time. We are not going to China yet, but may go later for repairs. I can talk enough Spanish to ask them almost anything in the common language. I have secured many curiosities, among them bolos, blow knives, and other things.

MISSING BOYS

CAUSED MUCH EXCITEMENT IN
EAST NEWARK.

Young Sons of Charles Wyant of Cedar Street Wanders to Country.
Caught by Storm.

Considerable excitement was created in East Newark Friday by the disappearance of Carl and Foster Wyant, aged respectively 10 and 8 years, sons of Charles Wyant, the well known B. & O. fireman, 59 Cedar street.
Searching parties scoured the city and vicinity, but from the time they were missed from home about 10 o'clock in the morning no trace of them could be found until midnight, when they were found, at the home of a farmer named Mr. McKnight several miles north of the city.

They had gotten on a farm wagon and started for Thomas Kislinsky's where they frequently went, but they did not get there as they were caught in the storm. The little fellows were brought to Newark about 2 o'clock Saturday morning, and were restored to their distracted parents, none the worse for their experience.

EQUITABLE TAXATION

(Continued from Page 1.)

upon as likely to have some political significance will be the appearance of Mayor Tom L. Johnson of Cleveland, before the state board of equalization, Thursday, September 5. Mr. Johnson's special target will be the railroads of the state and he will urge that the board increase the appraisement placed upon their property so as to bring the aggregate increase up to a fabulous sum. It is pointed out on the other side that Mr. Johnson's plans are impracticable under the present law defining the powers of the board. It is said that the board is prohibited under the law from either increasing or decreasing the aggregate valuation of railroads, but can only equalize values. The section of the statutes on this subject is as follows:

"Section 2812. The said board shall hear complaints and equalize said values by adding to the valuation of the property of such companies as have been undervalued, and deducting from the valuation of the property of such as have been overvalued; provided, that the board, in such equalization, shall not reduce the aggregate value of the property of railroad companies within the state below the amount returned by the board of county auditors."

It is certain that under this statute the board may not reduce the aggregate value, but it is not so certain that it may not increase it. Both negatives, however, have heretofore been held to be good, as a rule, although the total valuations have been very slightly increased on rare occasions, the theory being that there was no substantial increase. Mr. Johnson will be fortified in his figures and arguments by Professor Bemis, the New York expert who is in his employ.

It is not probable, however, that the proposed radical increase in railroad valuations can be made a political issue in this campaign. The Democratic platform is explicit on this point and recommends the taxation of railroads, like that of other property, on the basis of their "salable value." In other words, the Democratic platform holds that all property is worth what it will bring in the open market, and no more. According to this standard, although opinions may differ as to the values of certain railroad properties in Ohio, as, for instance, Mr. Johnson may hold a certain road's value at one figure, while its owners and the public consider it actually worth a much less sum, their value from the standpoint of the Democratic platform is what they will bring if offered for sale. It is hardly possible to make a political issue out of matter in respect to which there are such wide differences of opinion prevailing in both parties, especially when the law itself relating to the power of the state board of equalization is not explicit. The Democratic platform declares for the just and equitable taxation of railroad together with all other forms of property on exactly the same basis. This is undoubtedly an issue when it is clear that the Republicans evade the whole question and promise no reforms if given another lease of power. But it is hardly possible that an issue can be made out of the differences of opinion relating to this subject that will appear at the coming meeting of the state board of equalization.

LARGEST

MOTORS EVER BUILT TO RUN ON
COLUMBUS-NEWARK LINE.

Three Sixty Foot Cars Erected at Newark Shops—Each Has Four 75 Horse Power Motors.

Three of the largest cars ever built for any electric railroad are just now being finished at the Jewett Car Works in West Newark, for the Columbus, Buckeye Lake and Newark Traction Company.

Each car is sixty feet in length (about the length of a Pullman) and will seat 108 passengers. Each car is equipped with four 75 horse power motors and the latest appliances throughout. They are "summer" or open cars but are provided with a vestibule door at each end.

The cars which are finished in quarter-sawn oak, are equipped with Peckham M. C. B. non-tilting trucks, the improved double Stanwood steps, electric push buttons to signal the conductors, "walk over" seats, and are painted a "Big Four" yellow with solid bronze trimmings. The cars each weigh between 26 and 27 tons. They are beauties, and while they are the largest ever turned out by the Jewett company they are also as handsome as any ever built at this thriving factory.

Two cars similar to those above described have been built at the Jewett shops for the Columbus, London and Springfield line, a road that is to be operated by the same company that is now building the line from Columbus to Newark via Buckeye lake.

The Jewett car shops now employ nearly 300 hands. The fifth erecting shop has recently been finished so that the company which less than two years ago started in West Newark on a comparatively small scale now has in use a dozen buildings. New machinery has also been recently added including apparatus for making bolts, which the company had heretofore purchased from bolt manufacturers.

DRAWINGS

Made by Newark's Schoolboys and Girls Attracting Much Attention at Ohio State Fair.

(Columbus Dispatch.)

Mr. F. G. Steele, supervisor of drawing of the Newark public schools, has brought to the art building a beautiful display of 325 pieces of handwork of Newark's talented boys and girls. The display shows color schemes and mechanical drawings of all kinds, with just enough cartoons, tulle and feature work to show the versatility of the student. Mr. Steele's idea is to better fit young America for work in the shops and to put the growing youth on an equal footing with the students of Germany.

One part of the exhibit shows the ideas of the pupils on "The wonders of the 19th century." Scientific colorwork and geometrical drawings shown in all the grades and branches.
